

## BELIEVE US — THIS IS ONE SMOOTH OPERATOR

Forget about James Bond, Fred Astaire and George Clooney. The new da Vinci® Surgical System is as smooth as they come. The reason why is obvious. This new system gives our surgeons the sizable advantages of incredible precision and matchless accuracy. That precision and accuracy mean surgical incisions are smaller, scarring is reduced and healing time is faster.

Because after all, better health is at the heart of all we do.
