

“
If my family ever
needs a hospital, it
will be St. Mary's.
”

Greensboro businessman James Lakeman was in serious pain.

His wife rushed him to St. Mary's. Advanced diagnostics quickly found the cause – Type II diabetes was damaging his pancreas.

After completing St. Mary's Diabetes Outpatient classes, James is eating right, exercising daily, controlling his diabetes – enjoying life again.

Call **ST. MARY'S DIABETES CARE DEPARTMENT** for more information at 706.389.2150. To read James' story, visit www.stmarysathens.org
