

St. Mary's da Vinci-Trained Surgeons

Andrew H. Herrin, MD | Ruth M. Cline, MD | Vincent J. Maffei, MD | Rachel F. Murthy, MD | Catherine E. Schwender, MD | John C. Blankenship, MD | Chris E. Malone, MD

GREAT SURGEONS. ADVANCED TECHNOLOGY.

the future of surgery is in our hands.

With the new da Vinci Surgical System, complicated and delicate procedures can be performed through very small incisions with unmatched precision. Our team of da Vinci-trained surgeons use da Vinci's pinpoint control and amazing accuracy to offer many patients smaller incisions, reduced scarring and faster recovery. At St. Mary's, we have formed an innovative partnership between surgeons and robotics, and are performing a wide array of minimally invasive gynecological, urological and thoracic surgeries. stmarysathens.org
