

to get back on her
feet, why did doris
choose st. mary's?

Battling back from a long hospitalization, Doris wanted to return home, but knew she would need help. St. Mary's was with her every step of the way. Our Inpatient Center for Rehabilitative Medicine helped get her strong enough for independent living. **St. Mary's Home Health Care Services provided the support she needed** – at home physical therapy, nursing care, and Telehealth monitoring – to ensure she was safe, comfortable and right where she wanted to be. **See a video of Doris' story at www.stmarysathens.org**

your health is our mission  **ST. MARY'S**
HEALTH CARE SYSTEM

NOVEMBER IS NATIONAL HOME CARE AND HOSPICE MONTH.
