

I've been
given a new
lease on life.

When Randy McAuley suffered a major stroke, his wife, Joy, knew there was no time to waste. She had him transferred to St. Mary's, North Georgia's first primary stroke center.

Emergency surgery and specialized critical care nursing at **ST. MARY'S PRIMARY STROKE CENTER** saved Randy's life. Intensive inpatient and outpatient rehab are helping him get his life back on track.

Call 706.389.3700. For more information and to read the McAuley's story, visit www.stmarysathens.org
