

“  
The people at  
St. Mary's are  
wonderful!  
”

**Since her diagnosis in March 2007**, breast cancer survivor Visa Thompson of Monticello has been on a first-name basis with St. Mary's staff. Friendly technologists, compassionate nurses and skilled physicians put her at ease, while breast health nurses provided support and guidance from day 1.

From same-day mammograms to world-class diagnostics and surgery, St. Mary's is Visa's choice for breast cancer care. Shouldn't we be yours?
